

# Mission 200

Mission 200 is a partnership between the Southeastern Center of Robotics Education (SCORE) at Auburn University and the REC Foundation. During the 2019-20 school year, we aim to start 200 new VEX-IQ elementary and middle school robotics competition teams in the states of Alabama and Tennessee, with a focus on rural, urban, and under-resourced schools.

## How to apply:

Interested teachers should fill out the on-line application form by August 15, 2019 at:

<https://aub.ie/mission200> .

Completion of the application form does not guarantee acceptance, though we will make every effort to include as many schools as possible.

Mission 200 is supported by...

For more information, visit [www.scoreau.org](http://www.scoreau.org) or contact Mary Lou Ewald at [ewaldml@auburn.edu](mailto:ewaldml@auburn.edu)

Mission 200 will provide over \$1400 worth of equipment, supplies, and training per school including:

- 2 VEX-IQ competition robotics kits
- Engineering notebook pack
- Competition field and game pieces
- 2-day teacher workshop in their geographic region
- On-going support during the year from SCORE and the REC foundation

Each accepted school will commit to the following:

- Recruiting a diverse group of students to participate on the team(s) (target of 4-7 students per team)
- Sending 2 teachers to the teacher workshop
- Participating in a minimum of one VEX-IQ competition during the 2019-2020 school year

A qualified school meets the following criteria:

- Alabama or Tennessee public or private school containing one or more of grades 4th - 8th
- Preference given to rural or urban schools with Title 1 status
